Selfdrilling fastener with torx 6316SD-TX

Material:	galvanized steel
Unit:	1000 pc
Packing:	2000 pc
Weight:	6,66 kg/1000 pc
Thread:	Ø 6,25 mm
Length:	16 mm
Description:	Self-drilling screw with pan head. The head has a T30 Torx hole and a serrated bottom. Serrations improve screw fixation, and Torx improves torque. Used in residential and industrial garage doors to attach reinforcing profiles and hinges to the panel.
