

## Selfdrilling fastener with torx 6325SD-TX

**Material:** galvanized steel

**Unit:** 1000 pc

**Packing:** 2000 pc

**Thread:** Ø 6,25 mm

**Length:** 25 mm

**Weight:** 6,66 kg/1000 pc

**Description:**

Self-drilling screw with pan head. The head has a T30 Torx hole and a serrated bottom. Serrations improve screw fixation, and Torx improves torque. Used in residential and industrial garage doors to attach reinforcing profiles and hinges to the panel.
